

THE UNIVERSITY OF BRITISH COLUMBIA

Graduate Student Positions

Centre for Environmental Assessment Research & Pipeline Integrity Institute

PSR1: UBC MA Position – An analysis of pipeline regulation in North America.

UBC seeks outstanding graduate students to join a collaborative research project on pipeline regulation. The research will examine key events, industry innovation, and other factors, to understand the factors that have shaped regulation and industry practice. The work will involve an examination of the history of the industry and the evolution of regulation, an analysis of the role of regulators, other organizations, and public perception in creating the operating climate for the industry today. The position is funded. Start Date **September 2020**. An understanding of and/or experience with the Canadian regulatory and legal setting is important. Experience in the industry or with regulatory organizations is an asset. Students will join the Centre for Environmental Assessment Research (at the Okanagan campus) with Dr. Kevin Hanna and Dr. Edouard Asselin. Location: Kelowna
